

Prop 28 23-24 Annual Update- Russell Westbrook Why Not? Middle School Art Program

- Artistic Exploration: A dedicated teaching artist collaborates with students in grades 6-8 to delve into various art forms such as painting, sketching, and other visual arts. Through hands-on activities and guidance from the teaching artist, students have the opportunity to explore and develop their artistic talents.
- Expression and Creativity: The program provides students with a platform to express themselves and unleash their creativity through art. By engaging in painting, sketching, and other visual arts projects, students can communicate their thoughts, emotions, and ideas in a visual and creative manner.
- Holistic Educational Experience: By incorporating art into the curriculum and offering students the chance to work with a teaching artist, our school fosters a holistic educational experience. Students not only enhance their artistic skills but also develop critical thinking, problem-solving, and self-expression abilities that contribute to their overall academic and personal growth.

Through the guidance of a teaching artist and opportunities to explore painting, sketching, and other visual arts, students in grades 6-8 are empowered to express themselves creatively and contribute to a well-rounded educational experience at our school.
